NOTE

Dated.....13/5.....1926.

9) My people have returned from Nandey & say that all residents have been pressing for the immediate deputation of a Doctor to the place. The Doctor at Chikballapur had to be brought up at midnight to attend on a child of one of the Madras visitors.

10) The Senior Surgeon has already been asked to report whether an allowance could be given to a private practitioner stationed below, or whether medicines & attendance by a Govt Doctor might be charged for at fairly high rates. I was proposing asking the Senior Surgeon to depute an experienced Sub-assistant Surgeon immediately pending for the usual period of the season & to submit as soon as possible his proposals as above. The need for a Doctor seems very urgent.

7/26
With reference to your letter No. 9061 Med. 29-25-27,
dated 11th May 1926, requiring my opinion on the alternative
suggestions therein made for providing medical aid at the
Nandi Hills, I have the honour to state as follows:

Nandi is, normally, a healthy village, barring occa-
sional cases of plague from which, perhaps, no part of the
State is absolutely free. It is also not more than five miles
distant from Chickballapur where there is a general dispensary
and a Female Dispensary maintained by Government and a Hospi-
tal maintained by the American Mission. There seems to be
therefore, little justification for further expenditure on
medical aid at Nandi.

To obviate possible inconvenience to visitors to the
Nandi Hill during the season, the opening of a temporary dis-
pensary for about three months, say March, April and May, may
as usual perhaps, be necessary, and the following ways of
reducing the expenditure on this account are submitted for
consideration.

A Sub Assistant Surgeon from the sanctioned strength
will be spared for three months, so that there will be no
extra cost on account of his pay. He will have to be given a
special Hill Allowance of Rs.15/- per mensem, which will be
an additional cost. As the daily attendance is not expected to

to be large, a compounder is unnecessary but an attendant on Rs.12/- has to be allowed. A box containing a sufficient supply of the most common drugs for fevers and stomach complaints, with a pocket case and surgical dressings for use in case of accidents, could be provided, at a cost of about Rs.250/- The total cost may not be more than Rs.350/- for the whole season, excluding the pay of the Sub Assistant Surgeon, who will be spared from the Department, as a special case.

The best way of recovering the cost or any portion thereof from the visitors, for whose benefit generally the proposed arrangement is intended, is by levying a general fee of say, eight annas per head per diem, to be added on to the fee for accommodation, which may be notified as including medical attendance. As the visitors will mostly belong to the well-to-do class, they ought not to feel the payment of an extra four or eight annas a heavy burden in consideration of the medical facilities secured to them. The Sub Assistant Surgeon could be made to go round the different bungalows every morning and make enquiries of the health of the residents. In this case it may be necessary to grant an extra allowance of Rs.15/- to the Sub Assistant Surgeon for his trouble. The extra rent may be credited to the Medical Department.

If it is considered undesirable to impose a general fee for the sake of a few visitors, who may actually require medical aid, a charge of 12 annas for a day's medicine, and of Rs.2/- per visit for one patient and of 8 annas for every additional patient of the same family, may be levied, half the collection from visiting fees being taken by the Sub Assistant Surgeon and the other half with full charges for medicines being credited to the Medical Department.

If the proposal is accepted, a lumpsum provision of Rs.4,00/- may kindly be ordered to be made in the current budget of the Medical Department for this purpose.

I have the honour to be,

Sir,

Your most obedient servant,

Subject: Medical charges for Nandi Hills.

Sir,

Adverting to letter No.G.10367/1 Med. 29 25-45 dated 16th June 1926 requesting me to furnish my opinion on the proposals --- suggested by the Senior Surgeon in Mysore regarding the dispensary on the Nandi Hill during the season, I have the honor to state that while generally agreeing with the proposals I propose the following --- alterations: The opening of the Dispensary may be continued up till the end of the season, that is the middle of July instead of May. A senior Sub-Assistant Surgeon may be spared for $4\frac{1}{2}$ months instead of 3 months. An allowance of Rs.10/- be given to him instead of Rs.15, As there is already a case which contains the common drugs for fever etc., the question of providing a sum of Rs.250/- for this purpose may be deferred for the present. // I do not think it is desirable to charge all the visitors on the hill for the medical aid provided. Only those who actually get treated should be charged. The medicines may be charged according to the nature of the medicines and the number of doses instead of a general charge of 12 annas for a day's medicine which may be anything ^{from} 1 to 3 or 4 doses. The charge of Rs.2/- per visit of the Sub-Assistant Surgeon for one patient and of annas 8 for every additional patient of the same family is reasonable. And the proposal of the Senior Surgeon to allow half the collection for
